

Maximum Science for Extreme Gloss!

2005 Raymer Avenue • Unit Q • Fullerton, CA 92833 • 714/238-1129 • FAX: 714/870-8390 • www.masterformulapolish.com

Master Formula Paint Sealer Gloss polishes, seals and protects any painted surface. More than that. It leaves an extreme high gloss that will bead water up to one full year.

Our goal in designing **Paint Sealer Gloss** was to achieve a protective coating strong enough to act as a barrier against the millions of airborne particles that damage paint, and the oxidizing rays of the sun. At the same time the formula needed to exhibit an extreme gloss.

We're very proud of **Master Formula Paint Sealer Gloss**. It excels in protection. It excels in gloss and it's also very easy to use. The main key to using this product is to give it plenty of

drying time when you apply it. The protective coating is formed all by itself while drying. Afterwards, you simply wipe off the powder and discover the extreme high gloss. This is science at its best.

At **Master Formula** we are proud of our entire line of products. We've done our homework and they are the best.

Paint Sealer Gloss is second to none. We have a large family of enthusiastic customers all over the country who have tried it and are raving about the results. We invite you to join the gang and try some for yourself. We know you'll love it, and as with all our products, your absolute satisfaction is guaranteed.
